Promote Entrepreneurial Culture in the advanced areas of Pharmaceutical Sciences among students and contribute to the economic and health care development of the Region, State and Nation

TRAINING & PLACEMENT POLICY

It is pointed out by many industrialists that there is a huge gap between the curricula of the Technical Education and the Practical Exposure to Pharmacy Graduates for the last few decades. This will have great bearing on the Pharmacy Curriculum, exposure of industrial atmosphere to Pharmaceutical science students and subsequent placement of young Pharmacy in industries across the country. To solve their Pharmacy problems, industries started looking at Pharmaceutical Institutions. Therefore, there is an urgent need to prepare Pharmaceutical students for jobs in multinational companies, by exposing them to newer technologies and Pharmaceutical methodologies. These objectives can only be achieved well by increasing the quantum of interaction between industries and academic institutions. The Training and Placement cell continuously interacts with Industries and collaborates for increasing the Placements for students and obtaining sponsorship from various industries to carry out sponsored Research .
